PROFESSIONAL SUMMARY

Results-driven Product Manager and Product Owner with 4+ years of experience driving end-to-end product lifecycle from discovery and roadmap planning to launch and iteration, spanning B2B, XR/VR, EdTech, and AI/Emerging Tech domains. Founder mindset demonstrated through independently building and shipping three live AI and web products with 250+ combined monthly users. Skilled in Agile/Scrum, OKR-driven execution, customer discovery, and data-driven decision-making, with a strong technical foundation enabling direct collaboration with engineering teams. Track record of incubating 20+ products, validating 170+ startup concepts, and consistently improving core KPIs through structured experimentation.

PROFESSIONAL EXPERIENCE

Product Manager | **Nasscom Foundation** | Noida, India *June 2024 – Present*

- Defined product vision, roadmap, and go-to-market strategy for 500+ early-stage startup products, resulting in 20+ successful incubations and accelerating market entry for student entrepreneurs.
- Validated product-market fit for 170+ products through structured customer discovery sessions, competitive analysis, and market research, enabling data-driven pivot decisions and actionable growth strategies.
- Optimized product development lifecycle by streamlining procurement of 1,000+ components across 100+ purchase orders, reducing delivery bottlenecks by 25% and ensuring on-time product launches.
- Facilitated roadmap planning workshops, OKR-setting sessions, and backlog prioritization exercises to strengthen product-led growth strategies for early-stage founders.

Product Manager | **Goldenflitch** | Gurugram, India (Remote) *September 2023 – March 2024*

- Led end-to-end product development of a Unity-based Digital Twin VR solution using Agile/Scrum, owning sprint planning, user stories, and acceptance criteria for industrial IoT hardware-software integration use cases.
- Improved VR product performance by 20% through data-driven UX optimization and technical requirement prioritization, enhancing customer satisfaction and product stickiness.
- Partnered with cross-functional engineering and design teams to define product requirements, align on success metrics, and deliver seamless hardware-to-software data integration.

Associate Product Manager | **Grappus** | Gurugram, India *November 2022 – August 2023*

- Owned and prioritized product roadmap for telecom clients, aligning business objectives with customer needs, managing scope trade-offs, and ensuring consistent value delivery across multiple product lines.
- Defined and monitored product KPIs to measure success, surface improvement opportunities, and drive iteration strategies across multiple concurrent client engagements.
- Coordinated cross-functional collaboration across 30+ professionals spanning engineering, design, and business, ensuring alignment on sprint goals, milestones, and acceptance criteria.
- Managed product backlog, authored user stories, and facilitated sprint ceremonies per Agile/Scrum best practices, improving team velocity and delivery predictability.

Technical Lead – Product Development | **Mobiloitte Technologies Pvt. Ltd.** | Delhi, India *January 2022 – October 2022*

- Spearheaded product strategy and technical execution for a Metaverse Office and Multiplayer Car Race Game, integrating Unity and Blockchain for immersive web-based experiences.
- Improved WebGL product performance by 30–50% in FPS efficiency and reduced load times by 2–4x, directly boosting user engagement and retention metrics.
- Coordinated 10+ professionals across engineering, design, and blockchain teams to deliver product milestones on schedule and within scope.

Product Lead – VR Solutions | **Neo Marche** | London, UK (Remote) *August 2021 – June 2022*

- Launched VR Try-On and Kiosk application at London Fashion Week, achieving 3,000+ user engagements and validating product-market fit for virtual fashion retail.
- Improved UX comfort by 15% and reduced processing load by 20% through iterative user testing and performance optimization, enhancing product usability and onboarding rates.
- Designed and deployed an interactive VR onboarding tutorial using Meta Oculus, reducing user time-to-value and improving onboarding completion rates.

PROJECTS

TextLift · textlift.space | AI SaaS · Solo Founder *2025 – Present*

- Designed, built, and launched an AI-powered text analysis suite with 6 tools: AI Detection, Text Cleaner, Originality Check, Writing Suggestions, Text Humanizer, and AI Rewriter.
- Achieved 50+ Monthly Active Users organically with zero paid marketing; integrated multi-model LLM support across OpenAI, Claude, Gemini, and Grok with a privacy-first, in-memory processing architecture.
- Implemented BYOK (Bring Your Own Key) to let users connect personal API keys, removing usage limits and improving product stickiness.

Cupid's Code · cupidscode.netlify.app | Consumer Web App · Solo *February 2025*

- Shipped a Valentine's Day-themed interactive product, achieving 200+ users at peak and validating rapid go-to-market execution for seasonal, time-bound consumer experiences.

Couryr · couryr.netlify.app | Privacy Tech · Solo *2025*

- Built and launched a zero-trace, end-to-end encrypted peer-to-peer file transfer utility with no server storage, enabling direct peer streaming with a privacy-first architecture.

SKILLS & COMPETENCIES

Product Management	Product Strategy · Roadmap Planning · Go-to-Market Strategy · Product-Market Fit · Customer Discovery · Competitive Analysis · Backlog Prioritization · User Story Mapping · A/B Testing · OKR/KPI Management · Product-Led Growth · Stakeholder Management · Product Owner · Data-Driven Decision Making
Methodologies	Agile/Scrum · Kanban · SAFe · Design Thinking · Lean Startup · Shape Up · Sprint Planning · SDLC · Waterfall · Hybrid Methodologies
Analytics & Tools	JIRA · Asana · Notion · Confluence · Linear · Figma · Miro · FigJam · Mixpanel · Amplitude · Tableau · PowerBI · Google Analytics · SQL · Git
AI & Emerging Tech	LLM Integration (GPT, Claude, Gemini, Grok) · Generative AI · Agentic AI · RAG Systems · Prompt Engineering · AI-Powered Product Development · XR/VR/AR · Spatial Computing
Technical Skills	React · Node.js · TypeScript · Unity · WebGL · PostgreSQL · Supabase · Firebase · MongoDB · System Design · Microservices Architecture

EDUCATION

MBA – Information Technology & Operations | Delhi University *2023–2025 | GPA: 7.0/10*

B.Tech – Computer Science | Guru Gobind Singh Indraprastha University *2017–2021 | GPA: 7.14/10*

AWARDS & RECOGNITION

- SIH 2023 Winner – Ministry of Ayush: Recognized for innovation in social impact product development.
- 3rd Place, HackAIThon – Reskill & SRIT, Jabalpur.
- Mentored 50+ hackathons and delivered 30+ workshops on product development and emerging technologies.
- Unity Student Ambassador: Organized 5+ campus workshops on game development and XR for 50+ developers.
- MSC AR/VR Bootcamp Mentor (IGDTUW): Guided 30+ developers in immersive tech projects.
